

CYBERCRIME INCIDENT REPORT

1. Case Information

Case ID: MYNTRA-TASKSCAM-20250627-001

Incident Type: Online Job Scam / Advance Fee Fraud / Brand Impersonation

Investigator: Anish Kumar Patel

Location: Kathmandu, Nepal

Report Date: 2026-07-05

2. Executive Summary

This report documents a cybercrime incident involving a fake “Work From Home Job” advertisement impersonating the brand Myntra.

The victim was approached through Instagram and redirected to WhatsApp and a fake job portal website. The scam attempted to collect an advance activation fee of ₹200 under the pretext of job onboarding.

No financial loss occurred as the victim identified the scam before payment.

3. Platforms Involved

- Instagram (initial contact)
 - WhatsApp (+44 7988 014666)
 - Fake Website: <https://heartlight-replica.lovable.app>
-

4. Incident Timeline Summary

- Victim contacted via Instagram job advertisement
 - Redirected to WhatsApp for job discussion
 - Job offered with commission-based earning (30–50%)
 - ₹200 activation fee requested
 - Fake job onboarding website provided
 - Fake payment proof shown to build trust
 - Victim identified scam and stopped interaction
-

5. Key Indicators of Fraud

- WhatsApp number: +44 7988 014666
 - Website: heartlight-replica.lovable.app
 - Invitation Code: 456321
 - Fake email used in proof: janakpandey82@gmail.com
 - Customer ID: 7948AB18
 - Impersonated brand: Myntra
-

6. Evidence Summary

Instagram Evidence

- Fake job advertisement
- Profile: adanaffjnnn529
- Chat screenshots preserved

WhatsApp Evidence

- Conversation showing job offer
- ₹200 activation fee demand
- Fake payment proof screenshot

Website Evidence

- Login page impersonating Myntra
 - Fake job onboarding interface
-

7. Technical Analysis Summary

- No malware detected
 - No redirects or malicious downloads observed
 - Website is a fake login simulation page
 - Infrastructure hosted on SaaS platform
 - Attack relies on social engineering, not hacking
-

8. Threat Classification

Category	Level
Social Engineering	High
Financial Fraud Risk	High
Technical Complexity	Low
Malware Presence	None

9. Impact Assessment

- Financial Loss: None
- Data Compromise: None
- Device Impact: None
- User Awareness: Scam detected early

10. Conclusion

This incident is a structured online job scam designed to deceive users into paying a fake activation fee. The attack is based entirely on psychological manipulation and impersonation of a trusted brand.

Immediate investigation into the WhatsApp number, Instagram account, and hosting infrastructure is recommended.

11. Request for Action

It is requested that relevant authorities:

- Investigate WhatsApp number +44 7988 014666
- Take action against Instagram account adanaffjnnn529
- Review hosting abuse on lovable.app subdomain
- Prevent further distribution of similar scams
